

# Special Seminar

Monday, July 31, 1pm

MRF 204

## Science, Education and Filmmaking in Patagonia

**Daniel Casado, Director of 'Patagonia Azul' film**  
**Gustavo Chiang, Scientific Director, Foundation MERI**

Join us for a special seminar to learn about the filmmaking as well as the science and education behind the 'Patagonia Azul' movie which includes WHOI blue whale scientists. The film will be premiered at the Woods Hole Film Festival, Monday, July 31 at 5pm (same day as the seminar) in the Redfield Auditorium.

*Dr. Daniel Casado is a Mary Sears fellow specializing in environmental and science photography, film and documentation. He will be available the week of July 31 for meeting with interested students, post-docs and scientists.*
