

Car for sale!

A sturdy **Hyundai Tucson SE, 2008, 4WD**. Great car for the New England winters!

Price: 5,900 USD

Specifications:

- Hyundai Tucson SE, built in 2008
- Mileage: 112,500
- Drive type: 4WD
- Automatic Transmission
- Engine: V6, 2.7L
- Compact crossover SUV
- Cloth seats (with heaters for front seats!)
- Roof window

The on-demand 4WD switches on automatically when the wheels don't have enough traction, but can also be activated manually. So the car has the fuel economy of a 2WD the major part of the time and the advantage of a 4WD in inclement weather. I enjoyed it a lot last winter!

The safety inspection is valid till October 2018. The car will get a maintenance service this week to be delivered to you in great technical condition! Good maintenance history record and no accidents reported in Carfax. A few scratches here and there, but that's almost not worth mentioning.
