

Mycotoxins and Phycotoxins

Discovery and Risk Management of Harmful Biotoxins

date: June 11-12, 2011

location: Colby College, Waterville, ME

keynote: Lora E. Fleming, MD PhD
University of Miami, Oceans and Human Health
European Centre of Environment and Human Health

events: Career Panel, Evening Reception

chairs: Chidozie Amuzie, DVM PhD - Michigan State University
Juliette Smith, PhD - Woods Hole Oceanographic Institution

Participants are also encouraged to attend the following Gordon Research Conference for Mycotoxins and Phycotoxins: Mitigation of Natural Toxin Events in a Changing World, from June 12 - 17, 2011 also at Colby College, Waterville, ME. Contact Jim Pestka (pestka@anr.msu.edu) or Vera L. Trainer (Vera.L.Trainer@noaa.gov) for more information.

Discovery and Risk Management of Harmful Biotoxins: The focus of this seminar is on recent advances in three components of biotoxin research, including but not limited to (1) novel toxin identification, characterization, and tools; (2) mechanisms of toxicity, toxicokinetics, and ecological or physiological significance; and (3) biotoxin risk assessment, prevention and management.

The Gordon-Kenan Research Seminar is a unique forum for graduate students, post-docs, and other scientists with comparable levels of experience and education to present and exchange new data and cutting edge ideas.

A limited number of competitive registration and travel awards will be available to attendees.
