

The NOAA-MPOWIR Internship

A 10-week internship for
graduate students in
physical oceanography

NOAA in
partnership
with MPOWIR
(Mentoring Physical
Oceanography Women

to Increase Retention) is pleased to announce a unique internship opportunity. Two junior scientists will be chosen for internships at AOML (Miami, FL), GFDL (Princeton, NJ) or PMEL (Seattle, WA). Interns will be integrated into an ongoing research program for a period of 8 to 10 weeks while working on a project of mutual interest with a NOAA scientist. Interns will also work toward the goal of a coauthored publication.

To be considered for this opportunity, applicants must be female scientists currently enrolled in a graduate program at a U.S. institution and self-identify as a physical oceanographer. Additionally, applicants should be in their first, second, or third year of graduate school. Funds are available for lodging, travel, meals and incidentals.

For more information and to apply, **visit www.mpowir.org**.

All applications must be received by March 15, 2011.
