

Research Fellow in Geophysics

Ocean and Earth Science, National Oceanography Centre Southampton

Location: National Oceanography Centre Southampton

Salary: £27,854 to £34,223

Full Time, Fixed Term (up to 3 years)

Closing Date: Sunday 17 March 2013

Interview Date: April 2013

Reference: 200113HN

We are seeking to appoint a Research Fellow in Geophysics with a proven publication record to work in the Geology and Geophysics group at the National Oceanography Centre Southampton. We are particularly looking for someone with skills in wide-angle seismology and reflection seismology, but will consider applicants from all fields of seismology. The successful candidate will work on seismic data collected during summer 2013 in a joint US-UK-German experiment on the west Iberia rifted continental margin.

The post is available for immediate start. Please contact Professor Tim Minshall (tmin@noc.soton.ac.uk) for further enquiries.

The closing date for applications is 17 March 2013. Please apply online via www.jobs.soton.ac.uk or phone 023 8059 2750 for an application form. Please quote reference number 200113HN in all correspondence.
