

FACULTY POSITION - PHYSICAL OCEANOGRAPHY

Young and research intensive, Nanyang Technological University (NTU) in Singapore is ranked 41st in the world. It's Earth Observatory of Singapore (EOS) and Division of Earth Sciences invites applications for an early- to mid-career Professor in physical oceanography.

We seek candidates with exceptional, demonstrated accomplishment and promise in research and teaching, and a strong interest in working with other EOS and Southeast Asian researchers in physical oceanography and related fields. Specific research interests may include but are not limited to understanding tropical ocean dynamics, using historical observations to model ocean changes, and investigating interactions between ocean circulation, regional atmospheric/climatic processes and sea-level change.

Responsibilities include teaching undergraduate and graduate courses and building an extraordinary research program. The person holding this position will play an important role in the expansion of EOS and the Division of Earth Sciences.

To apply, please submit the following materials to:

eos_humanresources@ntu.edu.sg

- Cover letter
- Statement of research and teaching interests
- Curriculum vitae
- A copy of three relevant publications
- The names of three referees who are familiar with your work (please ask them to send their reference letters to us directly)

Further information about EOS and the Division of Earth Sciences is available at **www.earthobservatory.sg**

Review of applications will begin on November 2013 and will continue until the position is filled.
