

Concours no : **ISMER-17-02**Date : **February 10, 2017****Titre : Tenure Track Faculty Position in Ecotoxicology**

Fonction : The *Institut des sciences de la mer de Rimouski (ISMER)*, a multidisciplinary research center in oceanography, invites application for a regular tenure track faculty position in marine chemistry specialized in ecotoxicology. ISMER is looking for a dynamic individual who will contribute to the research and teaching objectives of the Institute through collaborations with existing faculty members, and who will develop an independent funded research program involving M.Sc. and Ph.D. students. He or she must be able to contribute to the M.Sc. and PhD programs through teaching and graduate student supervision.

This position is for an oceanographer with expertise on the accumulation, transport and impact of contaminants (hydrocarbons, pesticides, emerging contaminants, nanoparticles) on the functioning and dynamics of aquatic food webs, modeling impacts of contaminants on marine ecosystems, application of omic techniques in ecotoxicology, risk assessment of toxic exposition. The successful candidate should demonstrate a strong expertise in fieldwork. He/she will be encouraged to develop his/her own research program, and collaborate with biologists, chemists, physicists and geologists from the Institute and the University. ISMER is an autonomous research Institute is part of the *Université du Québec à Rimouski* and includes twenty professors and several support staff in all major disciplines of oceanography. In addition to state-of-the-art laboratories, the Institute operates a seawater research station and a 50-m research vessel. The working language is French, but strong candidates with another first language will be considered.

STARTING DATE: August 2017**PLACE OF EMPLOYMENT:** Rimouski (Québec), Canada

Candidates must provide a resume, a description of research and teaching statements, and the contact information of three referees. Applications can be sent by e-mail (presid-assemblee_ismer@uqar.ca) or by regular mail.

Exigences :

Diploma:	PhD
Field of diploma:	Marine chemistry, ecotoxicology, environmental chemistry or related field with a thesis in ecotoxicology
Field of specialization:	Aquatic ecotoxicology, environmental ecotoxicology
Research field:	accumulation, transport and impact of contaminants (hydrocarbons, pesticides, emerging contaminants, nanoparticles) on the functioning and dynamics of aquatic food webs, modeling impacts of contaminants on marine ecosystems, application of omic techniques in ecotoxicology, risk assessment of toxic exposition.

Traitement :

In compliance with the existing collective agreement.

Poste(s) accessibles(s) aux hommes et aux femmes. Toute candidature sera traitée confidentiellement.
