

NANTUCKET SOUNDKEEPER®

Marine Science Sea Education for Teachers 2006 APPLICATION

Marine Science Sea Education for Teachers 2006 is offered free of charge to active High School and Middle School Science teachers on the Cape and Islands. The program is a collaboration of the Provincetown Center for Coastal Studies and Ocean Classroom Foundation in conjunction with the Alliance to Protect Nantucket Sound Nantucket Soundkeeper program. Bunk space, board and instruction are provided aboard the schooner *Spirit of Massachusetts*. Boarding and disembarkation are in Hyannis, MA. Participants are expected to arrange and pay for their own transportation to and from the ship.

Please Print

Name _____ Date _____

Home Address _____

City _____ State _____ Zip _____

Home phone _____ Work phone _____

Summer phone (if different from home) _____

Email _____

Date of Birth _____

Gender: (M) (F)

School where you teach now (name and address):

Courses you teach, with grade level:

Years taught at this school? _____

Name and contact information (phone/email) of supervisor at school?

Name and location of other schools where you have taught, and your length of service at each school:

Please attach a short written statement (no more than two pages) describing your interest in marine science and why you wish to be selected for this program. Some points to consider: What do you hope to achieve professionally? How do you expect it will affect your curriculum? How will it benefit your students and your school?

All applicants must complete and return the enclosed medical form.

There is no application fee.

Selection will be made without regard to race, religion, ethnicity, or sexual orientation.

Nantucket Soundkeeper Marine Education 2006 is a physically active, fully participatory program. In addition to academic activities, seafaring activities (including standing watch) are an integral part of the program. While physical fitness, mobility and general good health are important considerations for any wilderness activity, **NO PREVIOUS EXPERIENCE IS REQUIRED.**

As part of the program requirements, participants are expected to develop a Marine Science module for use in their classroom, and to provide a copy to Nantucket Soundkeeper.

“If selected, I agree to participate in the Soundkeeper Teacher Sail, and fulfill the terms and expectations as described above. I understand that acceptance into the program will be based on competitive review of this application.”
