

# Solar & Wind Energy Talk

## Thursday July 24th 5-6 pm

Join us at New England Green  
Conwell Lumber 21 Conwell Street, Provincetown

Renewable energy advocate and SolarWrights regional manager Liz Argo will explain the opportunities inherent in the increasingly advantageous installation of residential solar and wind energy. The increase in oil, gas and electricity prices, combined with the need to curb our carbon footprint, have ushered in the age of energy independence. Come find out how you can step away from the increasingly dangerous addiction to fossil fuels and create your own energy resources to power your home.
