11:30 - 1:30: Climate Fair Talks - Redfield Auditorium,

Introductory Remarks: George Woodwell, Woods Hole Research Center

Moderator: Heather Goldstone, Ph.D. and Science Journalist, WCAI/WGBH

Speakers:

Diane Stanitski, NOAA: *Observing our Ocean to Understand Climate*

Anne Cohen, WHOI: *Ocean Acidification: Why Should We Care?*

Nathan Wilson, MBL, Center for Library and Informatics: *Biodiversity Loss and Climate Change*

Rob Thieler, USGS: *Sea Level Rise*

Jon Hare, NOAA/NMFS/NEFSC: *Impact of Climate Change on Fisheries*

Megan Amsler, Cape Cod Self Reliance: *Local Initiatives that strengthen community*

Tom Stone, WHRC: *Green Space on Cape Cod and Sustainable Building Design*

Guests: New England Climate Summer Interns: *Cycling for Change - our trip to Falmouth*

4-6pm: Bike Clinic and Informal TGIF - Redfield Lawn

Visit with other cyclers or people who may want to cycle more. Folks who bike regularly, or have alternative cycles, ie recumbent, folding, motorized bikes are especially encouraged to attend. Bring your bike and get a tune up or learn about basic bike maintenance. Bring your own drink and/or snack to share - if you want.
