Woods Hole Research Center

Advancing Science. Informing Solutions.

FLYING IN SPACE

AN ASTRONAUT'S PERSPECTIVE ON CLIMATE CHANGE

You are invited to join us for an inspiring scientific presentation by astronaut Dr. Piers Sellers, the deputy director for the Science and Exploration Directorate at the NASA Goddard Space Flight Center. Dr. Sellers has been on three space missions in which he completed numerous space walks, travelled millions of miles and orbited the Earth hundreds of times.

Wednesday, May 30

Presentation begins at 5:30 pm

Reception follows

**Harbourton Auditorium,
Gilman Ordway Campus**

149 Woods Hole Road, Falmouth

RSVP by May 28

Seating and parking are limited.

Reservations are required.

508-444-1521
