**COASTAL  
 TRAINING  
 PROGRAM**

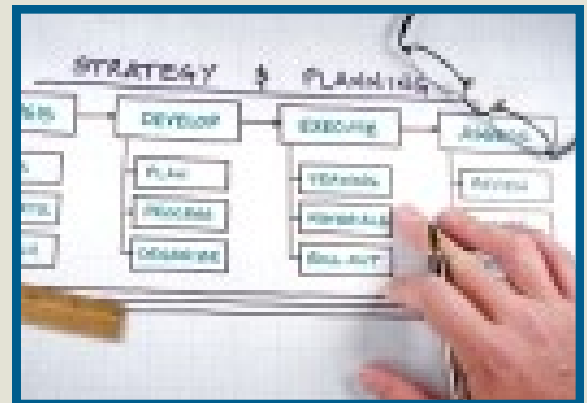

# Project Design & Evaluation for Coastal Restoration

June 4, 2013

9:00 a.m. - 5:00 p.m.

## Overview

Have you ever implemented a restoration project that didn't quite meet its intended outcomes? (Be honest!) This interactive, full-day workshop offers restoration practitioners valuable knowledge, skills, and tools to enhance your ability to design targeted projects that have a greater chance of achieving success. The workshop is not intended to present basic components of restoration planning, but rather a planning framework, using the logic model, that will increase project success. The approach is applicable to any habitat type.

## Location

Waquoit Bay National Estuarine  
 Research Reserve  
 149 Waquoit Highway, Waquoit, MA

## Registration

[www.waquoitbayreserve.org](http://www.waquoitbayreserve.org)

Please register by May 24, 2013

Space is limited to 30 participants,  
 registration is required.

**Cost:** \$15.00: includes food and materials.

*“How do I measure the effectiveness of my restoration efforts?”*

**By the end of this course participants will be able to:**

- Explain how restoration project design and evaluation support agency and organization missions, strategic plans, and established program niches;
- Identify and communicate measurable project outcomes;
- Demonstrate how logic models can be applied to restoration project design and evaluation;
- Identify meaningful performance indicators as a part of project evaluation; and
- Assess types and levels of evaluation that can be applied to restoration projects.
