

# *An Introduction to the Equipment, Processes, and Techniques of Kelp Farming*

Hosted by The Center for Economic and Environmental Development  
Roger Williams University

Interested in learning more about kelp farming?

Ocean Approved and the University of Connecticut will conduct a free workshop from 6-9PM on Tuesday, September 10, 2013 in room 200 of the Marine and Natural Sciences Building at Roger Williams University, Bristol, RI.

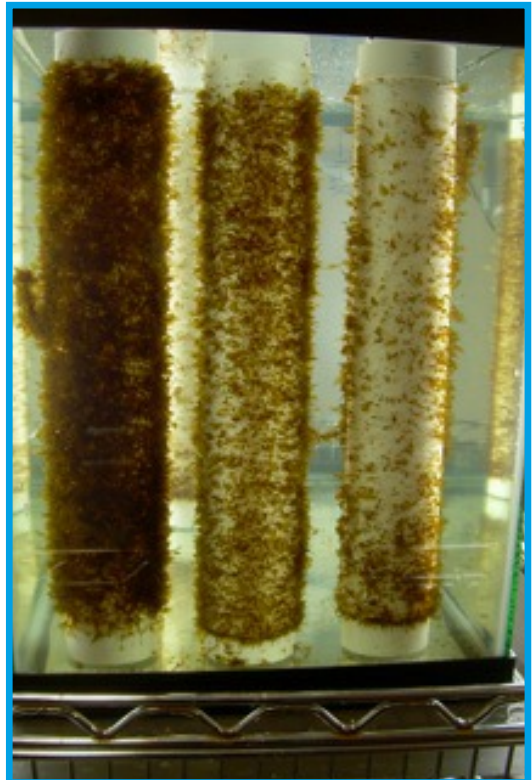

Ocean Approved, a Portland, ME based company, has been farming kelp on the Maine Coast for 3 years utilizing techniques developed in conjunction with the University of Connecticut.

This workshop will be a hands-on opportunity to learn techniques for growing kelp from spore to harvest. Equipment, techniques, and lessons learned will be covered from leaders in this new and emerging industry.

*This course is free to all interested participants. It is requested that you RSVP to:*

*Paul Dobbins, [pdobbins@oceanapproved.com](mailto:pdobbins@oceanapproved.com)  
207-409-6485 or*

*Cheryl Francis [cfrancis@rwu.edu](mailto:cfrancis@rwu.edu) 401-254-3110*
