Friends of Mashpee National Wildlife Refuge 18th Annual Meeting

The Mashpee and Quashnet Rivers are two very important and historical rivers within the Mashpee Wildlife Refuge. Author Ron Lasko will share his 25 years of fishing tales, conservational insights, and outstanding pictures about these rivers. He will be available to sign his new book "Tale of Two Rivers". After Ron's presentation the Friends will hold a short annual meeting to summarize our years activities. Please join the Friends organization in celebrating another successful year!
