# 3rd Biennial Martha's Vineyard Coastal Conference

June 6th, 2018 9:30am - 5pm  
Harborview Hotel | Edgartown

- ▶ Save the date to join experts, regulators, consultants, researchers, and partners from across the region to discuss a range of critical issues such as sea level rise, ocean acidification, storm flooding and erosion.
- ▶ Conference agenda includes presentations on coastal resilience (the state Municipal Vulnerability Preparedness Program, projects from the region, and how to fund these types of projects), alternative energy (both water and wind, as well as the state perspective), and water quality (an island overview, and specific projects on nitrogen removal by phragmites and shellfish).
- ▶ Audience: coastal managers, environmental organizations, town officials, staff, conservation commissions, planning boards, and anyone else interested in learning more about the coast.

Please register for this free event at <https://2018mvcc.eventbrite.com>
