

**Conducting scientific research projects that support sustainable fisheries, aquaculture, and agriculture**

## **Fisheries Science At-Sea Groundfish Monitoring Trainer**

Coonamessett Farm Foundation, Inc. (CFF) is looking to fill a full-time Fisheries Science Trainer position for its Northeast Groundfish At-Sea Monitoring (ASM) training program. The selected candidate will be required to work on-site at our East Falmouth, MA location and complete a federal background check after hire. This is a full-time, salaried position with a competitive benefits package. Salary commensurate with experience and education, range between ~\$50,000 to ~\$60,000.

### **Primary Duties**

- Train observers in program protocols, at-sea data protocols, identification, and paper logs
- Perform training trips and be able to support all training gear types offered
- Assist with the coordination of training materials, supplies, grades, and agendas
- Participate in administrative meetings, planning, and preparation of written reports
- Assist in training updates and agenda building and modification as needed
- Interface with observer provider companies and government employees and contractors

### **Minimum Qualifications**

- Prior Observer, Monitor, or Fisheries Sampling experience
  - Fisheries experience in the US Northeast region is preferred but not required
- Bachelor's degree in a biological or environmental science, natural resources, or related field of study
- Ability to work offshore and pass basic ASM fitness guidelines
- Public speaking and/or lesson planning experience
