# Fall Educator Workshops

**STEM ON THE COAST - CLIMATE THREATS AND RESILIENCE**

**DATE/TIME: SATURDAY, OCTOBER 22, 9AM-12PM**

**LOCATION: THE CRANE ESTATE, IPSWICH, MA**

**FEE: \$15 PER PERSON**

Co-hosted by the Trustees, participants will visit ever-changing coastal environments such as salt marsh, beach, and dunes, and discover how STEM is used to study and protect these essential habitats. Learn hands-on field and classroom activities to share with your students related to coastal erosion, community science monitoring, and coastal resilience.

**ATLANTIC WHITE SHARK CONSERVANCY WORKSHOP**

**DATE/TIME: SATURDAY, NOVEMBER 19, 9AM-12PM**

**LOCATION: CHATAM, MA**

**FEE: \$15 PER PERSON**

Join team members from the Atlantic White Shark Conservancy for an in depth look at white shark research in the Northwest Atlantic. The workshop will be 3 hours in length and will provide educators with an in depth look at white shark research in the Northwest Atlantic. By touring the museum, attending a lecture, and participating in a hands on workshop, we hope to provide educators with the tools needed to bring shark education into their classroom.
