

# An Inclusive NOAA Fisheries InternSHIP (IN FISH!)

## About the program

An Inclusive NOAA Fisheries Internship Program (IN FISH) is a ten-week undergraduate summer research and resource management internship that places interns in laboratories and offices nation-wide. In 2023, interns will work at NOAA or NOAA partner facilities in New England, Alaska, Seattle WA, Silver Spring MD, and other locations.

## What we offer

Two-week *Ecosystem Dynamics* course **and** eight-weeks of experience in a research or management project

Engaging research or management projects with support and mentorship

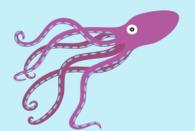

\$5,000 stipend and other fees covered to include: tuition, room & board, travel to/from program, etc.

A community of inclusion: Cohort building, networking, and professional development activities

## What our interns do

- Complete the orientation and course work on the campus of Monmouth University in Sandy Hook, New Jersey
- Complete research and management projects at assigned lab site with mentor for eight-weeks
- Present final student symposium in oral presentation to NOAA audience
- Learn about NOAA's mission, goals, career options, and more!

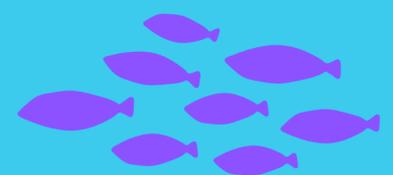

## Eligibility & Application details

**Undergraduates and recent graduates who are US citizens are welcome to apply.**
