

Ecology's Marine News: "EYES OVER PUGET SOUND"

Surface condition report from August 27th, 2012 is now available.

http://www.ecy.wa.gov/programs/eap/mar_wat/surface.html

What you will find:

- Extensive red-brown blooms in finger inlets in South Sound as well as in Sinclair Inlet.
- Very green bloom in Quartermaster Harbor, macro-algae abundant in Central Basin.
- Spectacular Puyallup river plume in Commencement Bay extending into Tacoma Narrows.
- Jellyfish patches are getting big in Sinclair Inlet and Budd Inlet.

Surface Conditions Report

August 27, 2012

We have a new website ([take a look](#))

[Start here](#)

Up-to-date observations of visible water quality conditions in Puget Sound and the Strait of Juan de Fuca

The pdf document is around 5 MB, upload times may vary. The pdf document has clickable navigation links.

Source images of the entire flight are located at:

ftp://www.ecy.wa.gov/eap/Flight_Blog/latest_pictures/

Note: If you wish to have access to images right after the flight please send me an e-mail at ckre461@ecy.wa.gov and I put you on a pre-release alert list with an ftp link.

We hope the images are inspiring and informative.

With best regards,

Christopher and the Marine Monitoring Unit
